## **DECLARATION ON QUALITY POLICY OF HELM SKANDINAVIEN A/S**

Helm Skandinavien A/S (HSK) is a part of the Helm Group. HSK purchases, stores, dilutes, mixes, packs and sells chemicals, additives, premix and supplementary feed.

Quality, Food- and Feed safety, Occupational Health and Environment are all fundamental issues for our activities and with our policies covering these areas, we express our commitment.

For us, quality management apply for the relationship with our business partners, as well as the internal relationships between employees, departments, business units, head office and sister companies. HSK is certified according to ISO-9001:2015.

A quality policy is a core element within the framework of our corporate governance. We commit ourselves to fulfilling the requirements mutually agreed with our business partners. We aim to pursue goals, which are relevant to our business partners' expectations and needs. We have established our system based on identification of our context and customers' needs to ensure supply of agreed product quality at agreed time and to continuously improve our service.

For our core processes, we work according to the following principles:

- We know what we buy.
- We know what our business partners require.
- We offer our business partners, what they expect us to deliver and achieve their satisfaction.
- When it comes to deviations, we clarify the causes and ensure that these deviations will not occur again.

Only through constant improvement we can face the challenges of changing market conditions. The willingness to talk openly about errors and the willingness to achieve sustained correction are basic principles of our work. We guarantee to follow the regulations of our quality system and stay committed to continuously improving our service.

With this declaration, the management of Helm Skandinavien A/S commits its staff to adhere to and put into practice, the stipulated quality system regulations. We will ensure that the requirements of national and international achieved certifications as well as all legal requirements are complied with. Only in this way HSK can remain a preferred supplier of our customers.

  
Jørn Erhardtsen, General Manager
